

Adam Seewald, Curriculum Vitae

Most recent version: adamseewald.cc/cv, 

Webpage	adamseewald.cc	<ul style="list-style-type: none"> I am currently a postdoc at the GRAB Lab, Yale University, and an incoming postdoc at the Environmental Robotics Lab, ETH Zürich My research focuses on robotics and computer science and involves autonomous robots in different environmental use cases I was born on November 27, 1993, in Bratislava, Slovakia, and I am fluent in Czech, English, Italian, and Slovak
Email	adam@seewald.email	
Phone	+1 (774) 333-2250	
Address	Mason Lab, Yale University 9 Hillhouse Avenue New Haven, CT 06511 USA	

Education

2018-2022	Ph.D., Engineering Science, University of Southern Denmark
	Thesis Energy-aware coverage planning and scheduling for autonomous aerial robots, 
	Advisor Prof. Ulrik Pagh Schultz
2016-2018	Master, Computer Science and Engineering, University of Verona, Italy
	Thesis Evaluation of optimal trajectories for quadrotors with indirect methods in the presence of intermediate constraints
	Advisor Prof. Paolo Fiorini
2013-2016	Bachelor, Computer Science, University of Verona, Italy

Experience

2024-	Postdoc, Environmental Robotics Lab, Dept. of Environmental Systems Science, ETH Zürich
	Project Robot-assisted collection of eDNA for pest detection in precision agriculture,  (PI: Stefano Mintchev)
	Funding World Food System Center and Fenaco's research program on smart sustainable farming
	Details Development of techniques (i.e., aerial-physical interaction, RGB-D perception, etc.) for the collection and analysis of environmental DNA samples for the detection of pests in precision agriculture.
2022-2024	Postdoc, GRAB Lab, Dept. of Mechanical Eng. and Materials Science, Yale University
	Project Mobile ground-based and aerial robots for biodiversity surveying,  (PI: Aaron M. Dollar)
	Funding Yale University's discretionary research fund
	Details Development of mobile robotic autonomy (i.e., navigation, control, and planning algorithms and communication methodologies) for nature conservation and surveying efforts [c7 , c6].
2018-2022	Ph.D. Researcher, Unmanned Aerial Systems Center, University of Southern Denmark
	Project TeamPlay – Time, Energy, and security Analysis for Multi/Many-core heterogeneous PLATforms,  (PI: Ulrik Pagh Schultz)
	Funding European Union's Horizon2020 program under grant agreement number 779882
	Details Development of the aerial robotics use case [c4] (i.e., fixed-wing aerial robot for precision agriculture). Development of an open-source motion planning/computing energy modeling library [j1 , o1] utilized by a network of collaborators including University of Amsterdam, University of Bristol, and INRIA.

Research

Peer-reviewed journal publication:

- [j1] • [Adam Seewald](#), Ulrik Pagh Schultz, Emad Ebeid, and Henrik Skov Midtiby, “**Coarse-grained computation-oriented energy modeling for heterogeneous parallel embedded systems**,” in *International Journal of Parallel Programming*. 2021; vol. 49, no. 2, pp. 136–157. Invited lectures

- **Solving energy-aware ergodic search problems via interior point methods.** Invited Speaker at the ICRA Tutorial on Ergodic Control, IEEE International Conference on Robotics and Automation. May 13, 2024. [↗](#)
- **Energy-aware dynamic planning: Merging path planning and computations scheduling for the drone use-case.** Invited Talk at the TeamPlay Final Workshop, (Virtual Event). May 27, 2021.
- **Energy estimation and modeling for the drone use-case.** Invited Talk at the TeamPlay Workshop, European Network on High-Performance Embedded Architecture and Compilation Conference. January 22, 2020.

Teaching and advising

Teaching at graduate and undergraduate levels (2):

Fall 2022	You, Your Planet, and a Sustainable Future , Yale University
Role	Teaching assistant (PI: Aaron M. Dollar)
Details	Survey course on sustainable technologies for undergraduate students in engineering and environmental science.

Spring 2019,'20	Optimization and Control , University of Southern Denmark
Role	Teaching assistant (PI: Agus Hasan)
Details	Elective course on numerical optimization, methods and solvers, for master's students in robot systems.

Advising of graduate and undergraduate students (2):

- **Omeed Fallahi**, undergraduate student in computer science, Yale University, 2022–2023
- **Magnus O. C. Liisberg**, master's student in robot systems, University of Southern Denmark, 2018–2019

Professional and outreach activities

- **Member**, Institute of Electrical and Electronics Engineers (IEEE), 2019–
- **Member**, Association for Computing Machinery (ACM), 2019–
- **Organizer** of the Time, Energy, and Security Analysis for Multi/Many-core Heterogeneous Platforms Final Workshop (TeamPlay'21)
- **Program Committee member**, IEEE International Conference on Robotic Computing (IRC'23,'22,'21), [↗](#)
- **Reviewer**, IEEE Robotics and Automation Letters (RA-L), [↗](#)
- **Reviewer**, IEEE International Conference on Soft Robotics (RoboSoft'24), [↗](#)
- **Reviewer**, IEEE International Conference on Robotics and Automation (ICRA'24), [↗](#)
- **Reviewer**, IEEE International Conference on Automation Science and Engineering (CASE'23), [↗](#)
- **Reviewer**, IEEE International Conference on Robot and Human Interactive Communication (Ro-man'22)
- **Reviewer**, IEEE International Conference on Unmanned Aircraft Systems (ICUAS'22), [↗](#)
- **Reviewer**, International Workshop on Robotics Software Engineering (RoSE'22), [↗](#)
- **Reviewer**, IEEE International Conference on Unmanned Aircraft Systems (ICUAS'21)
- **Reviewer**, IEEE International Conference on Control, Automation, Robotics and Vision (ICARCV'20)
