Address Mason Lab, Yale University
9 Hillhouse Avenue
New Haven, CT 06511
USA

- I am a Postdoc at the GRAB Lab at the Department of Mechanical Engineering and Materials Science at Yale University
- My research interests lie at the intersection of robotics, computer science, and optimal control, applied to the navigation and control of field robots
- I was born on November 27, 1993, in Bratislava, Slovakia and I am fluent in Czech, English, Italian, and Slovak

Education

2018-2022 **Ph.D., Engineering Science, University of Southern Denmark**

Thesis Energy-aware coverage planning and scheduling for autonomous aerial robots, [↗](#)

Advisor Prof. Ulrik Pagh Schultz

2016-2018 **Master, Computer Science and Engineering, University of Verona, Italy**

Thesis Evaluation of optimal trajectories for quadrotors with indirect methods in the presence of intermediate constraints

Advisor Prof. Paolo Fiorini

2013-2016 **Bachelor, Computer Science, University of Verona, Italy**

Thesis Analysis, porting and testing of parallel code for images recognition on CUDA Jetson TK1 platform

Advisor Prof. Nicola Bombieri

Experience

2022- **Postdoc, GRAB Lab, Dept. of Mechanical Eng. and Materials Science, Yale University**

Project Mobile ground-based and aerial robots for biodiversity surveying, [↗](#)

PI Prof. Aaron Dollar

Details I am investigating techniques for navigation, control, and planning of mobile robotics platforms for nature conservation and surveying. These platforms include, e.g., legged, aerial [\[c7\]](#), and wheeled [\[c6\]](#) robots jointly developed by multiple lab members.

2018-2021 **Ph.D. Researcher, Unmanned Aerial Systems Center, University of Southern Denmark**

Project TeamPlay – Time, Energy, and security Analysis for Multi/Many-core heterogeneous PLAtforms, [↗](#)

Funding European Union's Horizon2020 program under grant agreement number 779882

PI Prof. Ulrik Pagh Schultz

Details My contributions included the development of the aerial robotics use case and an open-source energy modeling tool written in C++ [\[j1\]](#), [\[c1\]](#) used by project partners such as the University of Amsterdam in the Netherlands, the University of Bristol in the United Kingdom, INRIA in France, and Irida Labs in Greece. To this end, I have applied energy optimizing techniques – including MPC and data-driven control [\[c4\]](#) – to aerial robots in flight [\[c2\]](#) and simulation using ROS [\[c3\]](#) and Matlab (R) [\[c2\]](#), [\[c4\]](#) and investigated other energy-critical systems [\[w2\]](#).

Publications

My publications include one journal article and seven conference articles. Two articles are currently under review.

- [j1] • **Coarse-grained computation-oriented energy modeling for heterogeneous parallel embedded systems**, in: International Journal of Parallel Programming. 2021; vol. 49, no. 2, pp. 136–157. [10.1007/s10766-019-00645-y](https://doi.org/10.1007/s10766-019-00645-y), [↗](#)

Teaching

I co-taught courses at graduate and undergraduate level.

Fall 2022	You, Your Planet, and a Sustainable Future , course for undergraduate students	
Role	Teaching assistant	
Supervisor	Prof. Aaron M. Dollar	
Details	I prepared lecture material and assisted in the theoretical parts of the course – a survey course in engineering and environmental science for undergraduate students at Yale University.	
Spring 2019, and 2020	Optimization and Control , course for Master's students in Robotics	
Role	Teaching assistant	
Supervisor	Prof. Agus Hasan	
Details	I taught constrained optimization and sequential quadratic programming and assisted in the practical parts of the course – an elective course for the Master's students in Robot Systems at the University of Southern Denmark.	

Academic Service

- **Reviewer** for IEEE Robotics and Automation Letters (RA-L), [↗](#)
- **Reviewer** for the IEEE International Conference on Robotics and Automation (ICRA'24), [↗](#)
- **Program Committee member** at the IEEE International Conference on Robotic Computing (IRC'23), [↗](#)
- **Reviewer** for the IEEE International Conference on Automation Science and Engineering (CASE'23), [↗](#)
- **Program Committee member** at the IEEE International Conference on Robotic Computing (IRC'22), [↗](#)
- **Reviewer** for the IEEE International Conference on Robot and Human Interactive Communication (Ro-man'22), [↗](#)
- **Reviewer** for the IEEE International Conference on Unmanned Aircraft Systems (ICUAS'22), [↗](#)
- **Reviewer** for the International Workshop on Robotics Software Engineering (RoSE'22), [↗](#)
- **Program Committee member** at the IEEE International Conference on Robotic Computing (IRC'21), [↗](#)
- **Co-organizer** of the Time, Energy, and Security Analysis for Multi/Many-core Heterogeneous Platforms Final Workshop (TeamPlay'21), [↗](#)
- **Reviewer** for the IEEE International Conference on Unmanned Aircraft Systems (ICUAS'21), [↗](#)
- **Reviewer** for the IEEE International Conference on Control, Automation, Robotics and Vision (ICARCV'20), [↗](#)
