Address ETH Zürich/WSL
Zürcherstrasse 111
8903 Birmensdorf ZH
Switzerland

- I am currently a postdoc at ETH Zürich and a visiting scientist at WSL, Switzerland.
- My research focuses on robotics and computer science and involves autonomous robots in different environmental use cases.
- My fields of research interest are aerial robotics, energy and environment-aware automation, field robots, and motion and path planning, among others.

Education

2018-2022 **Ph.D., Engineering Science** — **University of Southern Denmark**, Odense, Denmark

Thesis Energy-aware coverage planning and scheduling for autonomous aerial robots, 

Advisor Prof. Ulrik Pagh Schultz

2016-2018 **Master, Computer Science and Engineering** — **University of Verona**, Italy

Thesis Evaluation of optimal trajectories for quadrotors with indirect methods in the presence of intermediate constraints

Advisor Prof. Paolo Fiorini

2013-2016 **Bachelor, Computer Science** — **University of Verona**, Italy

Experience

2024- **Postdoc. Research Fellow**, Environmental Robotics Lab, Dept. of Environmental Syst. Sci. —

Visiting Scientist, Swiss Federal Institute for Forest Snow and Landscape Research WSL —

ETH Zürich, Switzerland

Project Robot-assisted collection of eDNA for pest detection in precision agriculture,  (PI: Stefano Mintchev)

Funding World Food System Center and Fenaco's research program on smart sustainable farming

- Develop robots for pest detection in precision agriculture (RGB-D perception, controls, planning, etc.)
- Coordinate research across organizations (World Food System Center, Agroscope, and AXA Climate)
- Serve as a teaching assistant for a course on robotics in precision agriculture

2022-2024 **Postdoc. Associate**, GRAB & Intelligent Autonomy Labs, Dept. of Mech. Eng. and Materials Sci. —

Yale University, New Haven, CT, USA

Project Mobile ground-based and aerial robots for biodiversity surveying,  (PI: Aaron M. Dollar)

Funding Yale University's discretionary research fund

- Develop robot autonomy for surveying [[c6](#), [c7](#)] (navigation, controls, planning, communication, etc.)
- Manage undergraduate and graduate projects at the GRAB & Intelligent Autonomy Labs (Yale U.)
- Assist NSF grant proposal focused on certifiable control
- Serve as a teaching assistant for course on sustainable technologies

2018-2022 **Ph.D. Researcher**, Unmanned Aerial Systems Center —

University of Southern Denmark, Odense, Denmark

Project TeamPlay – Time, Energy, and security Analysis for Multi/Many-core heterogeneous PLAtforms, [↗](#)
(PI: Ulrik Pagh Schultz)

Funding European Union's Horizon2020 program under grant agreement number 779882

- Develop aerial robotics use case [\[c4\]](#) (fixed-wing aerial robot for precision agriculture)
- Develop C++/ROS modeling/planning library [\[j1\]](#) (utilized by U. of Amsterdam, U. of Bristol, INRIA, etc.)
- Manage EU project TeamPlay [↗](#), coordinate industry collaboration (Sky-Watch, Irida Labs, etc.)
- Serve as a teaching assistant for courses on robotic numerical optimization

Research

Peer-reviewed journal published (1) and under review (3) publications:

- [j4] • Vatsal Patel, [Adam Seewald](#), and Aaron M. Dollar, “**Re-envisioning force-torque sensing: Simple six-axis sensor with a single camera and fiducial markers**,” 2025, under review. p. 28.

Invited lectures

- **Innovations in robotics for sustainable crop production.** Invited Talk at the Innovations for Sustainable Local Food Systems day, ETH Zürich World Food System Center. June 14, 2024. [↗](#)
- **Ergodic control applications: Energy optimal control.** Invited Speaker at the ICRA Tutorial on Ergodic Control, IEEE International Conference on Robotics and Automation. May 13, 2024. [↗](#)
- **Energy-aware dynamic planning: Merging path planning and computations scheduling for the drone use-case.** Invited Talk at the TeamPlay Final Workshop, (Virtual Event). May 27, 2021.
- **Energy estimation and modeling for the drone use-case.** Invited Talk at the TeamPlay Workshop, European Network on High-Performance Embedded Architecture and Compilation Conference. January 22, 2020.

Teaching and advising

Teaching at graduate and undergraduate levels (3):

Fall 2024 **Introduction to Agricultural Robotics**, ETH Zürich

- | | |
|------|---|
| Role | Teaching assistant (PI: Stefano Mintchev) |
| | <ul style="list-style-type: none"> • Elective introductory course on robotics techniques in precision agriculture for master’s students from different backgrounds |

Fall 2022 **You, Your Planet, and a Sustainable Future**, Yale University

- | | |
|------|---|
| Role | Teaching assistant (PI: Aaron M. Dollar) |
| | <ul style="list-style-type: none"> • Survey course on sustainable technologies for undergraduate students in engineering and environmental science |

Spring 2019, '20 **Optimization and Control**, University of Southern Denmark

- | | |
|------|--|
| Role | Teaching assistant (PI: Agus Hasan) |
| | <ul style="list-style-type: none"> • Elective course on numerical optimization, methods and solvers, for master’s students in robot systems |

Advising of graduate and undergraduate students (2):

- **Mattia Mangili**, master's student in robotics, systems and control, ETH Zürich, 2024–
- **Omeed Fallahi**, undergraduate student in computer science, Yale University, 2022–2023
- **Magnus O. C. Liisberg**, master's student in robot systems, University of Southern Denmark, 2018–2019

Professional and outreach activities

- **Member**, Institute of Electrical and Electronics Engineers (IEEE), 2019–
- **Member**, Association for Computing Machinery (ACM), 2019–
- **Organizer**, Time, Energy, and Security Analysis for Multi/Many-core Heterogeneous Platforms Final Workshop (TeamPlay'21)
- **Program Committee member**, IEEE International Conference on Robotic Computing (IRC'23, '22, '21), [↗](#)
- **Reviewer**, IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS'25), [↗](#)
- **Reviewer**, IEEE International Conference on Robotics and Automation (ICRA'25, '24), [↗](#)
- **Reviewer**, IEEE Transactions on Robotics (T-RO), [↗](#)
- **Reviewer**, IEEE Robotics and Automation Letters (RA-L), [↗](#)
- **Reviewer**, International Symposium on Distributed Autonomous Robotic Systems (DARS'24), [↗](#)
- **Reviewer**, IEEE International Conference on Soft Robotics (RoboSoft'24), [↗](#)
- **Reviewer**, IEEE International Conference on Automation Science and Engineering (CASE'23), [↗](#)
- **Reviewer**, IEEE International Conference on Robot and Human Interactive Communication (Ro-man'22)
- **Reviewer**, IEEE International Conference on Unmanned Aircraft Systems (ICUAS'22, '21), [↗](#)
- **Reviewer**, International Workshop on Robotics Software Engineering (RoSE'22), [↗](#)
- **Reviewer**, IEEE International Conference on Control, Automation, Robotics and Vision (ICARCV'20)
